

APPLICATION DAY!!

Are you over 55, unemployed, low income and looking for a job? If so Experience Works might be able to assist you.

Through the [Senior Community Service Employment Program \(SCSEP\)](#), eligible individuals participate in paid community service assignments at local public and nonprofit organizations. These assignments are a stepping stone to employment. Typical assignments include performing clerical duties at nonprofit organizations, sorting donations at thrift stores or food pantries, keeping parks and buildings clean, assisting at recycling centers, preparing meals and providing recreation for older individuals at senior centers, assisting in classrooms and libraries, and much more.

In addition to the community service assignment, participants in the SCSEP get help accessing needed services, updating their employment skills, and developing a job search plan.

The SCSEP is funded by the U.S. Department of Labor. Experienced Works is a nonprofit organization, equal opportunity service provider –no fees are charged for these services.

Experience works is conducting an informational/Application Blitz at the following location:
