PERMANENT LAYOFF – IMPACT ON CHILD SUPPORT

Please contact Child Support to let your caseworker know about your permanent layoff.

Child Support may be able to help:

- Pursue a review and adjustment of the support amount. Generally a review can be done every 18 months at the request of either parent.
- Suspend certain enforcement actions such as interest accrual and license suspension.
- Secure employment through a referral to the PRIDE program which is a partnership between Child Support and Job Services.

If you are unsure who to contact, customer service can help you.
